

Edited by practising renal physicians, this is a guide to the clinical management of patients with acute renal failure and its complex, life-threatening metabolic sequelae. The text explains the workings of the normal kidney, illustrates the aetiology and pathophysiology of acute renal disease, and provides practical treatment guidelines relevant to the day-to-day needs of the practising clinician. There is a clear emphasis on the underlying pathogenic mechanisms naturally leading to an understanding of the rationale behind the recommended treatments. Each chapter is illustrated throughout by coloured tables and diagrams, and incorporates unique easy-to-follow practice points algorithms which detail, step-by-step, the precise treatment protocols required to succeed in caring for these complex patients. An entire section is dedicated to dealing with patients who develop acute renal failure in specific hospital settings, such as the labour ward or intensive care unit. Doctors working in a wide range of acute medical specialities frequently encounter patients with acute renal failure and should find this a useful clinical handbook.

Guess Who Am I Animal Picture Book (Funny and Silly Animal Books 1), The Teddy Bears Picnic, Confessions Of An Interior Designer, Ah, I Am Full: Food Chain (Science Storybooks), Medleys of Praise: Hymns and Choruses for Solo Piano (Sacred Folio), 49 SACRED MELODIES FOR THE BALDWIN ORGAN SHEET MUSIC, Mimik und Gestik bei kreativen Menschen: Ein Screening zur Fragestellung, ob das die Art und Weise der Mimik und Gestik mit dem Persönlichkeitsmerkmal Kreativität zusammenhängt (German Edition), The Mammoth Book of Best New Erotica, Volume 1 (Mammoth Books), Lyndon B. Johnson (Hardcover Edition) (Presidents and Their Decisions),
