Pub Date: 2009 Pages: 531 Language: English Publisher: World Publishing Company I acknowledge and thank many people for their help with this book In particular I thank Alan Sloan. who has unceasingly encouraged me. who wrote the first Collage software. and who so clearly envisioned the application of iterated function systems to image compression and communications that he founded a company named Iterated Systems Incorporated. Edward Vrscay. who taught the first course in deterministic fractal geometry at Georgia Tech. shared his ideas about how the course could be taught. and suggested some subjects for inclusion in this text. Steven Demko. who collaborated with me on the discovery of iterated function systems. made early detailed proposals on how the subject could be presented to students and scientists. and provided comments on several chapters.
