

This Tarot kit offers a visual way to access intuitive guidance. The illustrated pack of 105 cards includes new images, suites and spreads to deal with contemporary questions and conditions, and it revitalizes those parts of the traditional Tarot that are most relevant today. It draws together teaching from Aboriginal, African, Celtic and Native American cultures to reveal how our health and the Earth's health interweave into the same web of power. Used with the accompanying book, which explains in simple terms how to consult and interpret the images, the cards may be drawn individually for daily guidance or laid out in appropriate spreads. Each image has a message designed to empower you to make both everyday and momentous life decisions. Most of the major arcana cards are presented in a new light, with several of their names altered to reflect concern for higher awareness in ourselves. The Hermit, for example, becomes The Wise Old Woman and reinstates the feminine wisdom. The Magician has become the Shaman in the tradition of healing. The Tarot now expresses the balance of male and female, rehonouring of our elders, and bridging the gap between ancient and modern.
