Montana is a state in the Northwestern United States. Montana has several nicknames, The economy is primarily based on agriculture, including ranching and . (considered a single river system) the longest river in the Rocky Mountains.

When Montana law speaks of "agriculture," it does so in the broadest sense .. Montana local governments have a statutory duty to consider agricultural impacts .

Crops. About 1/3 of Montana's agricultural income is provided by crops. Wheat is the state's leading crop. Barley and hay are important crops as are beans. Can lessons from Vermont keep local agriculture alive? The loss of that land is regarded by the county as an "incremental" loss, even as.

Martin Frick² and C. Van Shelhamer³, Agricultural Education, Montana State University, . were considered worthy of noting by the researchers, but are. Montana agriculture has always faced variability and occasional extreme events. .. Models provide producers with a range of plausible scenarios to consider in. This is Montana agriculture. It's the No. 1 industry in Montana, and it's dominated by wheat and cattle. But that's not the whole story. The number. Montana is definitely the beef state and that is confirmed by an article in Montana Department of Agriculture's recent Grown in Montana.
