

This unprecedented volume contains powerful invocations that can be used during each successive full moon, to aid humanity in canalizing the potent energies available only during this special time of the month. Helena Blavatsky and the Tibetan Master Djwhal Khul through Alice A. Bailey's writings, first introduced the art and science of invocation to the western world. Full moon group meditations take place globally amongst many religions and spiritual faiths. This book will peak the interest of meditators around the world and offers a new approach to full moon group meditations that will certainly peak worldwide interest. The Science of Full Moon Invocations is a guidebook on how to invoke the higher energies transmitted during each full moon
