

Excerpt from The Cultivation of Citrus Fruits: A Short Treatise With Special Reference
The Nitrate Propaganda is not engaged in the Sale of Nitrate of Soda but will furnish a list of dealers to all who apply for it. It should be remembered that the original package of Nitrate of Soda contains approximately 200 lbs. of normally dry Nitrate of Soda. Nitrate of Soda is generally sold in the original packages and should be stored or kept in a dry place. Glass Works and Manufacturers of Dynamite and Gunpowder usually have Nitrate on hand. If you have any difficulty in obtaining Nitrate, either by reason of prohibitive prices or undue delays or on account of inability of dealers to supply you promptly, let me know at once, and the difficulty will be investigated immediately. Correspondence concerning excessive freight charges is invited. Nitrate is sometimes discriminated against by the Transportation Companies by charging a chemical rate instead of a fertilizer rate: please secure and forward all the facts, including Freight Receipts. When ordering Nitrate, please be sure to request your Dealer, Manufacturer or Importer to have your invoice clearly and distinctly marked as Fertilizer. This is necessary that this valuable Farm Chemical may be properly classified in order to avoid the discrimination practised by the Railroads against Nitrate. About the Publisher
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
