

Campion is best known for his work as a poet and as a composer of songs for voice and lute. He is also recognized for his poetry in Latin and for his work in the masque form of poetic drama, which is considered of some importance in the evolution of the genre. In addition to his creative works, Campion wrote a significant study on poetic theory, *Observations in the Art of English Poesie* (1602). In this controversial work, he argued that verse written in English should emulate classical meters. The influence of classical literatures, primarily Latin, are found throughout the work of Campion, whose reputation as a writer and composer has steadily improved over time.
