

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Urology is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, the diagnosis and management of: Benign prostatic hyperplasia Bladder cancer Prostate cancer Renal cancer Impotence and infertility Female stress urinary incontinence Calculus disease Interstitial cystitis Pediatric urologic problems Penile malformations Reflux disease Sexually transmitted diseases The goals of this program are to improve diagnosis and management of low-risk prostate cancer and image-guided radiotherapy for prostate cancer. After hearing and assimilating this program, the clinician will be better able to: 1: Identify patients who are candidates for active surveillance and counsel them about prognosis. 2: Discuss the complications and limitations of prostatic biopsies. 3: Evaluate whether external radiation therapy, surgery, or brachytherapy is the best approach for an individual patient requiring active treatment. 4: List new and emerging techniques for reducing radiation toxicity to organs near the prostate. 5: Explain the impact of treatment modalities on survival and toxicity.

Doug Ashford, Julie Ault, Group Material: AIDS Timeline: 100 Notes, 100 Thoughts: Documenta Series 032 (100 Notes - 100 Thoughts/100 Notizen - 100 Gedanken), Plane and Spherical Trigonometry, Routledge Philosophy GuideBook to Anscombes Intention (Routledge Philosophy GuideBooks), Literacy for Life: Adult Learners, New Practices (Language and Literacy Series (Teachers College Pr)) (Series on School Reform (Paperback)), Socio-History of Ex-Criminal Communities OBCs, Dictionary of Idioms and Their Origins, Richardsons Defense Of The South,
